I just wanna trace your fingers  
I just wanna make you laugh  
I just wanna lose you for a second and watch you come  
right back  
I just wanna bite your lip  
Can you tell I wanna drive you crazy  
I just want to be together and I just wanna be lazy

I can't stand this  
You get me all stressed out  
If there is one thing I know  
That's not what love's about

But I wanna hear you say you love me  
Even though I know you don't  
I just wanna make you fall for me even though I know  
you won't  
I've got as good a chance at makin' this work  
As all of the other girls you told you loved before

I wanna wake up next to you  
I wanna make you tell the truth  
I wanna steal your jacket and wear it all the time

I wanna make it better  
I wanna fight with you  
I wanna make the stars in line  
I wanna win or lose

I wanna love you hate you  
And love you again  
I wanna pull your hair I want you to meet my friends

I wanna trust you  
I need you to trust me back

I want you to take it slow  
I want you to walk with me  
I want you to sit outside with me and listen to the  
breeze  
I wanna feel the sleepy desk now  
And I want you to feel it too

I wanna learn everything there is to know about you

Try

I just wanna make you try  
I just wanna ask you questions  
I just wanna look into your eyes and make you cry  
I wanna make you feel  
You don't do that enough  
I wanna be the one to make you feel so much  
I wanna make it hard for you  
I wanna make you tell the truth  
I wanna hold your hand and I  
I wanna make you happy

I wanna hum

I wanna break  
Your heart  
I wanna tell you it's okay  
I wanna lie I wanna lie to you

Just wanna try  
Just wanna make you try too  
I just wanna try  
Just wanna make you try too
