"Wicked Illness"

Visit "[Wicked Illness](#)" on [MotoLyrics.com](#)

So happy I think you are living according to your
believes
With your money safe in your house... daddy looks for
it
And you're not satisfied at all in this world that's full of
hate
Complaining by everything... and the state worries?

There were more before you... societys revel pets
There were more before you... continue complaining
again
It's your paranoia... the system doesn't worry by them
It's your paranoia...

Stop lying yourself realize you don't do anything
If you want to help the in migrants... give them food to
eat
And to look for "mother earth" stop bothering the ones
that help
Don't come complaining again with your brand new
shirt

There were more before you... societys revel pets
There were more before you... continue complaining
again
It's your paranoia... the system doesn't worry by them
It's your paranoia...

So happy I think you are
With your money in your big house
And you're not satisfied at all in this world that's full of
hate
Complaining by everything...

There were more before you... societys revel pets
There were more before you... continue complaining
again
It's your paranoia... the system doesn't worry by them
It's your paranoia...
