Just like dark and light  
End and start of day  
Balance is in sight  
Free from our mistakes

Inceptions of a war  
Is the human way  
Ignorance is the door  
To the end of days

Did we learn a thing?  
From our sorry past  
They keep on pulling strings  
And we keep falling fast

Can they read my mind?  
Witness my distress  
Coming from the fight  
Of feelings I repress

It's time to leave it all behind  
And try to make you just understand  
When we are bound to watch and cry  
A fragile equality can be dead

Freedom for the few  
Rights that do not dare  
Nothing here is new  
We don't seem to care

I will watch you fall  
For it has been done to me  
As long as I recall  
Blood I see in gray

Just try to leave the past behind  
And take your own fate under command  
It's time to leave it all behind  
And try to make you just understand  
When we are bound to watch and cry  
A fragile equality can be dead
