We still go mental for the music we love  
dub is my weapon bass is my gun  
when it comes to fight sounds louder than a bomb  
my only guru is a speaker that go boom!  
when my dj put da needle Â'pon da groove  
donÂ't rock my boat leave us alone  
lemme people dance till the break of dawn  
listen to me no matter what they say  
there is no speech more meaningful than drum&bass;  
fill up de dance work it to the bone  
we still go mental for the music we love

music once again you take me higher  
music spread your wings and take me higher

mash up to this  
step up to this  
nun ce sta niente ca te faÂ' pariaÂ' comme chesto  
mash up to this  
step up to this  
viene appriesso a nuje  
nuje simmo dubb specialist
