And I can't wait for tonight
Is this how we say goodbye?
And I'd love to give
Back every tear you've cried
Take take back everything you ever said
Promise
Me that this love will never come to an end
I'm afraid and I never wanna see
You again

And he said...
"Save yourself for somebody else cause I don't
Wanna be the one to take your breath away"

I know you were never ever ready
To show
What it means to be and how to lose all control
Grab your keys and
Get ready to roll
We've been down this road before
I'm through with
You

Hey, hey I don't wanna break you
They, they don't wanna take you
Down
[Cut me up and break down so you can say I'm the
worst guy ever]
