

Almost Arlington "Say The Words"

Visit "[Say The Words](#)" on MotoLyrics.com

Just lay back
Dim the lights
Hold on tight
I'll make you fall in love tonight
We can take it fast
We can take it slow
We can take it anyway you wanna go
But just know
This is all about getting you off
Of me

Just say the words and we can stop this now
You've waited too damn long to waste this memory with
me

Hey girl I've got something to tell you
We can wait but I don't really wanna
After all that we've been through
I won't take advantage unless you want me to

I get lost inside your head every time you're in my bed
And I know it's the same for you as it is for me
We'll sing it yeah we'll sing it out loud
Roll the windows down and crank up the sound
