And so you say
It doesn't matter either way
Either you lie or you're just that insecure
I know you're afraid
This might not work anyway
Give it a try
I know that you're unsure

All this time I've been trying just to understand
Tryin to keep my head straight and make the right
impression
Now you've got me runnin' talkin to myself
Baby I'm just trying to see

You are the one
You're all I need
You're what the stars wish they could be
And I know you'll see
Everything I thought I could be

And so please stay
I'm not leavin either way
Give it a try
I know that you're unsure

All this time I've been trying just to understand
Tryin to keep my head straight and make the right
intention
Now you've got me runnin' talkin to myself
Baby I'm just trying to see

You are the one
You're all I need
You're what the stars wish they could be
And I know you'll see
Baby you belong to me

Where did go?
Why did you leave?
I've been standing here just waiting for you to come
back
So I can make you see that you are the one...
