Verse 1

I don't trust anymore
I don't believe what you say
And oh I don't know why the world lies to me this way
I don't believe anymore
You don't convince me at all
You aren't going to be here to catch me when I fall

Chorus

I don't listen anymore
Really why should I
I don't need to hear you
And really why would I
What people say will only piss me off more
I wish I could shut them all out like a door

Verse 2

Cut the bullshit please
I don't want to hear it anymore
You are a vicious liar right down to your core
Shut your mouth if you will
Don't try to fool me ever again
I mean every word I write with this pen

Chorus

I don't listen anymore
Really why should I
I don't need to hear you

And really why would I
What people say will only piss me off more
I wish I could shut them all out like a door

Verse 3

Stop talking to me
I don't wish to hear what you say
Don't lie to me
I've had enough of that today
Just leave me alone
You don't know what I'm going through
And don't act like you want me to explain

Chorus

I don't listen anymore
Really why should I
I don't need to hear you
And really why would I
What people say will only piss me off more
I wish I could shut them all out like a door

Verse 4

I don't bother anymore
There is no reason to try
There is no point in working hard
In the end I will just die so just go away
