I've got these words on the tip of my tongue  
Stolen from songs that are already sung  
I can't wait to hear it's over it's over  
Can't escape everyday of this week  
Can't stop skim but I skim at my teeth  
I can't wait to hear it's over it's over

We'll see tonight  
'Cause I know what you're drinking  
We'll say goodnight  
'Cause you know that it's already over

Can't escape to everyone that you say  
Even though I've gotcha in my own way  
I never said it was over it's all over  
I don't wanna take this den  
Just check my scars on the other hand  
I know I've heard this beat  
It seems to be the best of beating

You live, you learn but nothing's changed  
And we lie it stays the same

We'll see tonight  
'Cause I know what you're drinking  
We'll say goodnight  
'Cause you know what I'm thinking

No way to go  
And you find out that I know  
We'll say goodnight  
'Cause you know that's already over

You learn to live with your mistakes  
A short regret is all it takes  
To pull the price of what it cost  
You learn to live with what's left  
Just look at me it's what you see  
A life a dream all simply  
Is what you want is what you need  
'Cause is what you want is what you need

We'll see tonight  
'Cause I know what you're drinking  
We'll say goodbye  
'Cause you know what I'm thinking

We'll see tonight  
'Cause I know what you're drinking  
We'll say goodbye  
'Cause you know what I'm thinking

No way to go  
You find out that I know

We'll say goodnight  
'Cause you know that it's already over  
It's already over... yeah...  
It's already over
