Dance beat pulled my head from the TV.  
Found a light deep inside me.  
Time to shine on the dance-floor.  
Dance queen got the look that can free me.  
Got the hook deep inside me.  
She's a vision, she's a vision, she's a visionÂ...

I'll wait all night to meet her.  
I'll wait all night to see her smile.  
I'll wait all night to meet her.  
My disco baby.

DJ got the key to the party.  
Make the beat bring her my way.  
Turntable make me happy. HappyÂ...

I'll wait all night to meet her.  
I'll wait all night to see her smile.  
I'll wait all night to meet her.  
My disco baby.

I'll wait all night to meet her.  
I'll wait all night to see her smile.  
I'll wait all night to meet her.  
My disco baby. My disco baby.

Disco baby, Disco baby, Disco baby, DiscoÂ...
