You're alive and I can see  
"A wild fire in your eyes"  
I want you and I don't need to wonder

All the love and all the life  
That you have given me this time  
You can read it in my mind "I'm stronger"

Babe I just want to die  
If I have to live without you  
Babe I just love your style, it's so smooth

"Body rock" living for my pleasure  
"Body rock" I feel you're keeping uoh oh!  
"Body rock" a sense of desire  
I can't wait for you this long uoh oh!  
"Body rock" please relight my fire  
"Body rock" a lovely feeling uoh oh!  
"Body rock" it is now or never  
I can't wait for you this long uoh oh!

Just for you and just for me  
This is the life, this is the time  
I love you and you can make me stronger

Babe I just want to die...

"Body rock"...
