Power of power of power of magic
Power of power of power of magic
Power of magic

To run away use the power of the magic
To change your mind, the way you looked so tragic
To satisfy the fire that burns inside you
Just let it win, I'll always go along with you
Get away get by with the power of the magic
Maybe it'll bring on the silence
You'll keep on loving the power of the magic
You with the timeless and silence
Yeah yeah yeah yeah yeah

* You walk in the street along silent trees
The power of magic
The winds go around, it's making a sound
Of you loving magic

Oh oh oh
It's night of change, to keep your satisfaction
Life is so strange, a lot of combinations
Don't waste your time but let it come inside you
It's another world, that baby will surround you
You'll keep your love alive with the power of the magic
Oh baby this is the last string
You'll keep your world with the power of the magic
This is how you win all your heartache
Yeah yeah yeah yeah yeah

* Repeat (x2)

Oh oh oh
Power of power of power of power of magic
Power of magic

* Repeat (x2)

Oh oh oh Oh oh oh Oh oh oh
Oh oh oh Power of magic
