Over love, flying to me  
Just where the people's eyes can't see  
Over love, over time  
I wanna see you by my side

\* You're the one  
Back your love sure set me free  
Baby, you are my love  
That every thing that I need

\*\* Come in my direction girl, that's OK  
The world is for you and me  
Oh baby, give me passion now, can you feel  
The Power of my Love

Set me soul, you are the way  
I never feel fine till you stay  
Over love, call my name  
And since you came I'm not the same
