Lay down your arms  
This fight you cannot win  
Don't go too far  
Might be a rude awakening

We're worlds apart  
I can't help what I don't feel  
Don't trust your heart  
I'm everything that you don't need

(you might as well)  
Run / leave  
Cause I'm not your destiny  
(you know you better)  
Run / break free  
From your own worst enemy  
I know you're confusing me  
With the one I used to be  
(You might as well)  
Run / leave me  
No, I'm not your destiny

I know myself  
The dark mind of a restless soul  
The road to hell  
So tell me what you're waiting for

Don't hesitate  
There's still time to save yourself  
Before it is too late  
Get a life, get someone else

(you might as well)  
Run / leave  
Cause I'm not your destiny  
(you know you better)  
Run / break free  
From your own worst enemy  
I know you're confusing me  
With the one I used to be  
(You might as well)

Run / leave me  
No, I'm not your destiny

Lay down your arms  
This fight you cannot win  
Do not trust your heart  
Might be a rude awakening

(you might as well)  
Run / leave  
Cause I'm not your destiny  
(you know you better)  
Run / break free  
From your own worst enemy  
I know you're confusing me  
With the one I used to be  
(you might as well)  
Run / leave me, no, I'm not your destiny
