"Shine"

When I've gone too far
When I've had enough
When I'm losing ground
Feelin' outta touch
I don't run and hide,
I just look inside for a simple peace of mind

Like a neighbourhood, on a city street
I know the path it knows my feel and
When I feel afraid, feel like checking out
You stand up and take a bow

You shine when others need you
You speak and I believe you
I know the light it guides you
I'll join the line that walks behind you

[Chorus:]

You shine, you shine, you shine
Like a window to your heart I see all the possibilities
You shine, you shine, you shine
And everyday's another opportunity
To shine

The way you see the world
The way it sees you back
You're the photographer
You take the photograph
If you don't like the way, the way it looks at you
You've got all the power to choose

Turn it right, turn it left, turn the other way
Make it light, make it dark, make it go away
I love the way you write, the script to your own life
You're the star you're on tonight

And when I feel unnoticed
Just two steps back from hopeless
You turn my world around with a single smile
That's who you are, that's who you are

[Chorus:]

You shine, you shine, you shine

Like a window to your heart I see all the possibilities

You shine, you shine, you shine

And everydays another opportunity

To shine

To shine

I know the light, that light that guides you

I'll join the line that walks behind you

[Chorus:]

[You shine, you shine]

In my life I know you

[Shine, you shine, you shine]

Like a window to your heart I see all the possibilities

[You shine]

And everydays another opportunity

To shine
