# "Tonight This Country Will Die"

Visit "[Tonight This Country Will Die](#)" on [MotoLyrics.com](https://MotoLyrics.com)

A land of plenty, a land for free  
Where no one knows real poverty  
Work enough - Democracy  
Rely on social security

You're cornerstones, success assured  
For every problem the final cure  
Learn our way, do as we say  
Go to school, the state will pay

20 years ago you thought me this crap  
But things now have changed  
It's no longer like that, your pocket is empty

Your system has failed, now it's too late  
Holland is great!!!

Tonight this country will die  
Along with your theatre of lies  
I'm glad that I realise  
I live in this paradise

So where is your wife, where is your job??  
Where is your money, where is your god??  
Try to blame me but isn't you that has failed  
For you and thousand others  
Holland is great!!!
