Do you drive the nicest car, get the nicest girls
Cry when one of them is late, such an unkind world
Out to the discos, calculated riskos, they bore me to no
end
One by one they learned to be themselves, weren't they
once my friends?
But I remember when love was love And games were
games

Dark days
Actors in our dark plays
Breathe our every dark ways
Living in these dark days
Actors in our dark plays
Breathe our every dark ways

We were so pretentious then, we thought we were so
strong
We had all the answers then, made them up as we went
along
We were so together, drive your parents crazy was the
only rule
New discerning, alternate learning, now it's only school
But I don't wanna grow up no more, it's too big a maze

Dark days
Actors in our dark plays
Breathe our every dark ways
Living in these dark days
Actors in our dark plays
Breathe our every dark ways

Dark days
Actors in our dark plays
Breathe our every dark ways
Living in these dark days
Actors in our dark plays
Breathe our every dark ways
