I'd like to see some body else
Who can hold your hands up
And say I'm the one who's perfect
And that I am the one who's elates you
I'd like to see someone
Who can replace the sun
The sun of man

I'd like to see some body else
Who can hold your hands up
And say I'm the one who's perfect
And that I am the one who's elates you
I'd like to see someone
Who can replace the sun
The sun of man

You raise the dead
Feel the sand
He walks upon the sea
Feels a million rith o raths
Steady shock for me

For you and me

I'd like to see some body else
Who can hold your hands up
I'd like to see some body else
Soo much love to share

I'd like to that one
Who can replace the sun
The sun of man

I like to I like to see some body else
See some body
I'd like to see some body
Some body some body...
