Get all shook up when you call my name
Get all shook up when you call my name
Get all shook up when you call my name
You're the kind of woman drive a man insane

Don't know what loving you will do
'Cause I know what a jealous heart will do
Don't know what to do, but I'll try to be true
Don't know about you, but I know I love you

Well, take this heart and soul of mine
Well, take this heart and soul of mine
Well, just take this heart and hang it on a line
You can take this heart and soul of mine

Woh, ohh, woh, ohh, don't break my heart
Woh, ohh, woh, ohh, don't break my heart
Get all shook up when you call my name

Get all shook up when you call my name
Get all shook up when you call my name
Get all shook up when you call my name
You're the kind of woman drive a man insane

When you see what a real good love can do
Well, love makes a broken heart come through
So, I'm giving it all, now all it's up to you
So, let's see what real good love can do

Woh, ohh, woh, ohh, don't break my heart
Woh, ohh, woh, ohh, don't break my heart
I get all shook up when you call my name
