Something you got, baby
You make me work all day
Something you got
Make me bring you all my pay

Something you got, babe
You ought to know
I said my, my, oh, oh
I love you so

Something you got, babe
Keep me home every night
Something you got
Makes everything all right now

Something you got, babe
You ought to know
I said my, my, oh, oh
I love you so

Ah, yeah
All right

Something you got, babe
Whoa, whoa, you ought to know
I said my, my, oh, oh
My, my, oh, oh
I love you so
