Now and then I think of when we were together
Like when you told me that your marriage was a lie
Told me that I brought you back to life
Couldn't live without me by your side
Didn't care about the sex you begged to fuck my mind

You can get addicted to a certain kind of madness
You'd love to be a man your life just won't allow
You said that was the reason for your pain
But you were scared to ruin your family's name
Your wife's the only one glad we are over

But you didn't have to cut me off
Tell your wife it never happened and that we were
nothing
And I don't even need your love
But you treat me like a stranger
And it feels so rough

No you didn't have to stoop so low
Tell me you were leaving and that she could never
make you happy
I guess you'd like to keep me though
Cause now you're just somebody that I used to know

Now you're just some asshole that I used to know
You're just a fucking liar that I used to know

Now and then I think of all the ways you screwed me
over
Must be nice to get away with all the shit you've done
You told me to believe in love
We would never break for anyone
I should have just walked away
But I stayed and watched you turn into some coward
that I used to love

But you didn't have to cut me off
Tell your wife it never happened and that we were
nothing
And I don't even need your love
But you treat me like a stranger

And it feels so rough

No you didn't have to stoop so low
Tell me you were leaving and that she could never
make you happy
I guess you'd like to keep me though
Cause now you're just somebody that I used to know

Somebody that I used to know
Somebody that I used to know
Somebody that I used to know
Somebody that I used to know

Now you're just some asshole that I used to know
You're just a fucking liar that I used to know
