Right is what you always are  
We all see through  
The acts cowarding behind your eyes  
All is said but nothing is done

It's easier to hide  
Your bruises and your breaks  
Than it is to admit you made a terrible mistake

Were we done before we said goodbye  
Complacency is a never ending lie  
But you'll know when you die.

I've given you time  
It won't change

Were we done before we said goodbye  
Complacency is a never ending lie  
But you'll know when you die.

The judgement that destroys the men  
Warns me of nothing but ignorance
