You're killing me and I want to,  
Get at you and oh how I've tried  
You're killing me, I'm saving you.

You're killing me and I want to,  
Get at you and oh how I've tried  
You're killing me, I'm saving you.

Oh  
Why can't I see?

Take a look at me,  
You tell me if I mean  
What I say!  
I've known nothing but victory,  
And now you'll know defeat.

You're killing me and I want to,  
Get at you and oh how I've tried  
You're killing me, I'm saving you.

You're killing me and I want to,  
Get at you and oh how I've tried  
You're killing me, I'm saving you.

I've known nothing but victory,  
Now you'll know defeat.  
Oh

Take a look at me,  
Tell me if you think I mean  
What I say!

You're killing me and I want to,  
Get at you and oh how I've tried
