We've been standing in the dark, and we found each others' heart
We found love at once, and nothing could tear us apart
Now you're laying here beside me, and I don't know what I feel
Don't feel to talk no more, I've tried the best I can.

I still remember yesterday, when I was free a long lost girl;
I can't figure out one reason, what life is all about.

I have been waiting all my life, to find someone just like you,
Why does it hurt me?
I have been waiting all my life, to be someone and somewhere,
Why am I crying tonight?

Do I want to leave this house and the home we built behind?
What do I stand for?
It doesn't matter what I do
If I leave you, I will cry
If I'm staying I will die
I don't know what to do, I just wanna keep on loving you.

When you're laying there beside me, I can't see the things I've seen
I don't feel like hold you tonight and walk the endless road.

I have been waiting all my life, to find someone just like you,
Why does it hurt me?
I have been waiting all my life, to be someone and somewhere,
Why am I crying tonight?

Why does it hurt me? Please let me love you tonight.

I have been waiting all my life, to find someone just like
you,
Why does it hurt me?
I have been waiting all my life, to be someone and
somewhere,
Why am I crying tonight?
