Look where I find myself, caught in the middle
Between letting go and staying w/a man who I don't
know
How can I let myself let this unhealthiness continue
I feel damned if I don't, damned if I do

So I apologize and we, come to a compromise
See this is our first big fight
It's too early to give up and get out and say goodbye

I'd like to think I've got a good head on my two
shoulders
I've made some wrongs but gotten better as I've gotten
older
Still at 26 relationships are so hard to fix
One see's eye to eye while the other tries for lips to lips
He makes me cry and keeps crossing the line
Still I can't move and I don't know why
I can't give in give up and get out, and say goodbye

Fool me once, shame on you
Fool me twice, shame on me
This is not where I envisioned us to be, oh no no

(Intro repeats 2x while Nick does a solo)

Look where I find myself, IN LOVE WITH A DISASTER
You say you'll change but broken records don't make
the pain heal any faster
How can I let myself keep hurting you the way you say I
do
Maybe you're no good for me hey I'm no longer good
for you

He's gotta walk the line and I've, gotta read the signs
Should we even try? or just give in, give up and get out
and say goodbye

Start to understand why we are who we are as time
goes by
But if you won't change then neither will I
We gotta give in, give up and get out and say goodbye

Give in give up and get out give in give up and get out
Give in give up and get out, say goodbye
