I can feel you close to me  
Even though you're far away  
I'd give the world to have you here  
With me today  
Now my memory keeps me hanging on  
And the promises that we made  
No I don't mind the wait  
Gonna leave it to fate  
Cause no-one does it better  
You're the best in the world to me  
It's easy to see - I really can feel it  
You're the best in the world to me  
I gotta believe - that our love was meant to be  
Oh - oh - oh - oh oh - oh - oh  
You're the best in the world  
Dreaming of you kissing me  
And of all the fun we had  
Helps me fight the loneliness  
And makes me glad  
Oh I know there are other boys around  
But I can only see your face  
So I'll wait for the day  
Till you're with me to stay  
Our love will last forever  
You're the best in the world to me  
It's easy to see - I really can feel it  
You're the best in the world to me  
I gotta believe - that our love was meant to be  
Oh - oh - oh - oh oh - oh - oh  
You're the best in the world  
Oh - oh - oh oh - oh - oh - oh oh - oh - oh  
You're the best in the world to me  
Deep inside your arms is where I want to be  
I'm holding on till you come back to me  
Oh baby - oh boy  
\* Repeat and fade
