Never pictured you and I on a night like this  
With half lit sky and a heart felt kiss  
I can't get over how it get this for  
Guess you had it all planned out  
Then you stole my heart

So here I am with you  
Closer to love than I've ever been  
Must've had a thing for you  
I'll tell you want I wanna do

\* I want to hold on to your hand  
Spend every moment with you  
I want to hold on  
And everything you've put me through  
It's just brought me closer to you

There was never a time when you didn't care  
You were always close you were always there  
And now I see you on this moonlit night  
And we're standing here in a different light

So here we are  
Looks like you stole my heart away  
Must've been always you  
But I didn't know till today

\* Repeat

Every time you smile  
They say it's never too late  
Guess we just had to wait  
It's just brought me closer, closer to you

\* Repeat
