

Alyssa Milano "Happiness"

Visit "[Happiness](#)" on MotoLyrics.com

My world was empty and cold
Never had someone to hold
Never had someone to love me
And then you came in my life
Now the stars all shine so bright
Oh I feel like I'm in heaven
I can't believe we're together
And I can't get you out of my mind
I want you here forever
Until the end of time
*Happiness is when you're here with me
My heart's filled with joy oh can't you see
Happiness is when you're here with me
My whole world just comes alive
I had no reason to feel
That I'd find a love so real
That I'd give my heart so sweetly
I'll always cherish you I swear
Can't you see I'm yours completely
I can't stop thinking about you
My emotion is stronger each day
My life is lonely without you
Don't ever go away
*repeat
So hold me close and believe me
I'm yours only
My love never fade away oh
*repeat
