

Alyssa Milano "What a Feeling"

Visit "[What a Feeling](#)" on MotoLyrics.com

I had no reason to believe in love
I never ever saw the stars above
My world was empty and cold
Never had somebody to hold
I was alone and drifting out to sea
I needed someone who could rescue me
I couldn't find my own way
Couldn't tell the night from the day

The one day you appeared just like a dream
And now I know what happiness can mean

* So glad you came into my life - What a feeling
I thank the stars for all the love we're sharing
So glad you came into my life - What a feeling
I never dreamed I'd find a love like yours and mine

I was afraid and just too blind to see
I never thought that love was meant for me
I couldn't let it begin
Didn't think that I'd ever win
I had no dreams - I had no fantasy
My heart was always under lock and key
I couldn't let myself go
Now it seems so long ago

And now my life is better every day
I never knew that love could feel this way

* Repeat

I'm hoping that it's not just my imagination
I'm praying that it's not just your infatuation
And now my life is better every day
I never knew that love could feel this way
Hey hey

* Repeat
