I listened to you To everything you had To say
everything you said Was exactly how I feel inside. You
read my mind now Let's sing this song that I personally
wrote About feeling lonely having No idea what to do
then. Suddenly, suddenly out of the Blue someone tells
you what your Felling inside. CHORUS Numb the pain let
me Feel the freedom of life Let down all the barriers
that are Surrounding me set me free Let me feel the
freedom to sing To write This songs yeah All these
words I write The lyrics in this Song that I'm singing Is
about how you saved Me from a Broken heart. Reach
out your hand Touch me tell me you Feel the same tell
me these Words I'm saying really hit The spot Don't
keep me captured Behind These barriers becauseÂ...
Â...Â... I want to be free. CHORUS+2 Numb the pain let
me Feel the freedom of life Let down all the barriers
that are Surrounding me set me free Let me feel the
freedom to write These songs
