Baby now since the day I first met you
I haven't been able to stop
Thinking about you thoughts of you keep on
Circulating around my head
It's driving me a little crazy
Yeah.

I'm beginning to lose my mind
But what can I do?
But what can I say? To make all this just so simply
Fade away I got to let it all fade to black
I got to turn my back on everything and
So simply walk away from all
Mistakes
And misfortunes.

This is where I get up out of this chair
Take a look at how far I've come
I've come so very far I never go back there
To my darkest days and nights
Ever again no, no,
No.

I know that lately I haven't been at my best
I've made my mistakes I wish I could take them all back
But I can't I used to walk in the shadows of my
Past
Mistakes but.

I'm beginning to lose my mind
But what can I do?
But what can I say? To make all this just so simply
Fade away I got to let it all fade to black
I got to turn my back on everything and
So simply walk away from all
Mistakes
And misfortunes.

I've grown up fast
I've learned a lot of things too, oh yes I have
I've been through so much I'm still a young girl
But I'm learning

Everyday is a learning step for me
I'll get there to the very top in my own time
Oh yes I will.

I'm not going to hold onto
My mistakes
And misfortunes I'm not going to blame anyone
Else for my stupidity is my own actions
No one else can take responsibility.

I'm moving on, I'm moving on with my life
Now I've got things to do like
Getting my life back on track
This is where I turn my back on everything and
So simply walk away
So simply, so simply walk away
Walk away, walk away.
