Don't shut this out.  
I've warn this gag down by speaking in tongues-  
And I've held my breath for far too long.  
So head my warning.  
You better pray it wont burn-  
Cause' your drowning-  
In a fire that consumes you.  
Yesterday he told me he was fine-  
I don't know how you've lasted this long.  
Don't say I didn't warn you-  
This time I'm not here to save you.  
I don't know how you've lasted this long-  
Your spirits dying.  
God save you-  
This day will be remembered.  
God save you-  
Don't say I didn't warn you.  
Next time pay attention to those red letters.
