In this house the foundation's hidden  
Underneath the ground  
In this life our support is given  
Often without sound

You are my underground angel  
Lifting up my feet  
You are the spotlight that shines  
This shadow behind me  
You are

Underneath where we are all living  
Roots are feeding trees  
Never feeling warmth of the sunlight  
Underneath they breathe

You are my underground angel  
Lifting up my feet  
You are the spotlight that shines  
This shadow behind me  
You are  
You are  
You are
