I found, it's safe underground  
Where, no one can hear or see me  
Not allowed, to break from the crowd  
I slip by so easily

### CHORUS

Can't complain, 'cause mama tried to warn ya  
'Bout that scene, out in California  
It's an illusion, they always told ya  
"Ya better never go to California, girl"

Walking, talking, breathing  
Light on her feet  
She's not so easy to meet  
Are ya scared?  
A little Hollywood hottie  
Rocking Rodeo Drive  
She's murderous with her purse  
And her channel stare

### chorus

I know you know that you know  
That you needed out on your own  
I know you know that you know  
That you needed away from your home  
You don't care where you go, no

Ya better never go to California, girl  
Ya better never go to California, girl  
Ya better never go to California, girl
