Real life is just a little too real tonight  
I think I'm gonna hop a jet plane  
Go where things work out right  
Some place far away from here, far from here

I wish life could be like a song on the radio  
Everything just peace and love and stuff like that  
I wish life could be like a song on the radio, you  
Just turn it on and turn it up yeah

Laundromat, stop lights and taxi cabs  
I think I'm gonna hop a freight train and find out where  
it's at  
Some place far way from here

I wish life could be like a song on the radio  
Everything just peace and love and stuff like that  
I wish life could be like a song on the radio, you  
Just turn it on and turn it up yeah

When life doesn't go my way all I gotta do is put on my  
favorite song and I drift away yeah

Some place far away from here... far from here

I wish life could be like a song on the radio  
Everything just peace and love and stuff like that  
I wish life could be like a song on the radio, you  
Just turn it on and turn it up yeah

I wish life could be like a song on the radio  
Everything just peace and love and stuff like that  
I wish life could be like a song on the radio, you  
Just turn it on and turn it up yeah  
Turn it up yeah  
Turn it up  
Turn it up yeah  
I wish life could be
