Face to Face, i'm not alone the shadows cry my tears  
In the dark, forced apart my panic leads to fear  
Put yourself in my shoes, would you feel like your in  
danger?

My enemy is not alone in your fear lives a stranger

Trapt inside, your world of lies your actions bring no  
rights

Looking far, searching wide my visions out of sight  
Stinging hard, fighting rough my drinking leads to fear  
Now blessed, im alone

Right!!!!!!!

Right!!!!!!!

Right!!!!!!!

Right!!!!!!!
