"Dirty"

Visit "[Dirty](#)" on MotoLyrics.com

Tired of being clean, sick of being proper, I want to live
among the beggars and dig out in the dirt, step
outside the walls we built to protect us, don't be afraid
to get some mud on your face, come on come on
everybody, come on come on and serve some one.

Chrous: Let's get dirty, let's get used, no matter where
you come from, if your beatten up or brused, let's get
foolish, let's get free, free to be the one thing, you
were meant to be, let's get dirty.

You might get a bruse, or some blisters on your
fingers, you might start to

Question or wonder what it's worth, you might slip and
fall from the burdans that you carry, but you can't have
this treasure till you dig it from the dirt.

Come on Come on everybody, Come on Come on and
serve someone

Repeat Chrous

Come on Come on everybody, Come on Come on and
serve someone, Come on Come on everybody, Come
on Come on and serve someone

Repeat Chrous
