"Goodbye"

You'll be fine tomorrow
The sun will rise again
It's never easy to say goodbye
You know I'll always love you
You know I always will

Goodbye, goodbye, goodbye
My old friend (my old friend)
Goodbye, goodbye, goodbye
We've reached the end (we've reached the end)

I don't cry for sorrow, I cry with joy
The memories we've made can't be destroyed
You know I won't forget you
You know I never could
And when I say I loved you
You know I meant for good

You know I'll always love you
Goodbye
