Farewell, so long to you  
We've come to the end of the night  
It's all been wonderful  
A lovely and wonderful time

Say goodnight to  
All the friends who  
Rocked and rolled beside you

We hope you've enjoyed the show  
It's over  
It's over  
It's all over now

This room will be empty soon  
When the music and laughter is gone  
This night will be forgot  
But the joy you've found can go on

Say goodnight to  
All the friends who  
Rocked and rolled beside you

We hope you've enjoyed the show  
It's over  
It's over  
It's all over now  
The lights come down, don't lose your glow  
When it's over  
It's over  
It's all over now

Is it all over?  
Or has it just begun?
