"Lonely Man"

Visit "[Lonely Man](#)" on MotoLyrics.com

I got some game and I got some style
You best beware I'm a real wild child
My secret's safe, can't read my mind
To get to me you've got to get in line

I am a lonely man
I am a lonely man

I lost everything on the number ten
You gotta pay if you wanna play
I tossed my dice on the green felt skin
You gotta play if you wanna play
It all comes down so I break it down
It all comes down so I break it down
It all comes down so I break it down
It all breaks down

Take some time you can see inside
The little man that I try to hide
You'll never know me 'cause I've always lied
You'll never know all the tears I've cried

I am a lonely man
I am a lonely man

I lost everything on the number ten
You gotta pay if you wanna play
I tossed my dice on the green felt skin
You gotta play if you wanna play
It all comes down so I break it down
It all comes down so I break it down
It all comes down so I break it down
It all breaks down

I want something to believe in
I want to see what I cannot see
