We're worlds apart  
The distance between us is just too great  
Draw me close, let me know You're near  
The reason we sing  
Is to bring down You're glory  
Show us Your face  
Pour Your love down and cover me  
Pour Your love down and cover me  
At Your feet, I bow down and know  
That You are my King,  
My King  
The weight of life is swept away  
The reason we sing  
Is to bring down You're glory  
Show us Your face  
Show us Your face  
Pour Your love down and cover me  
Pour Your love down and cover me  
I feel so alive  
When you pour your love down  
Pour Your love down and cover me  
Pour Your love down and cover me  
Pour Your love down and cover me  
Pour Your love down  
Pour it down  
Let it cover me  
Pour Your love down and cover me  
Pour Your love down  
Pour Your love down  
And cover me  
Cover me with your love  
Pour Your love down and cover me  
Cover me with your love  
Pour Your love down and cover me
