"Speak To Me"

I'm in a fix
Need something quick
My mind is numb
My stomach sick
Broken hearts
Hopeless things
I've seen what defiance brings
Cause the light of day
I've always known
Is in my heart
I'm not alone
Speak to me
Tell me all the things i need to know
I want to hear you now
Can you speak to me
I've opened up your word to free me
I want to hear you now
It's amazing
How i forget
Can't live my life
For lack of it
But the light of day
I've always known
It's in my heart
I'm not alone
Speak to me
Tell me all the things i need to know
I want to hear you now
Can you speak to me
I've opened up your word to free me
I want to hear you now
Make your wisdom clear
The words i hold so dear
Bring the light into my dark
I hide them inside my heart
