"Summertime"

Visit "[Summertime](#)" on MotoLyrics.com

Want to play all day
And swim out in the waves
In a lagoon that has no shark to bite my legs
A perfect place
Where we can all laugh out loud
With palm trees, an ocean breeze
And never any clouds
Get away
Far away
To a place
I can stay
Feels like summertime
The sun is shining on my face
Feels like summertime
I never want to leave this place
But if i can't go now
I know someday, somehow
I know you've got a place
Designed for me someday
I've got a mansion there
A royal getaway
And when my work is done
You'll fly me there at last
A place that doesn't take credit cards
Or lots of cash
But if i can't go now
I know someday, somehow
You will take me there
Cast away my burdens
Take away my cares
