Here they come
We are surrounded
We're out numbered
With no place to run

So we're staying here
Lifting up a prayer
Deliver us

Hear that voice there
You shall not fear
You shall not fight
Watch Me there

Can we really stand fast
While the enemies advance
We swore to believe
So no matter the chance
We say

Raise the banner high
March with Adonai
Lift your voices up
Loud and high

Strength and unity
Faith and victory
Let the battle rage on
We cry

Woohooo
Woohooo

Here we come
And we're lifting praise
Our battle cry
Is giving thanks

Hear the people sing
Hallelu His mercy reigns
His word is true

With armies in the back
And singers in the front
We swore to believe
So no matter the chance
We say

Raise the banner high
March with Adonai
Lift your voices up
Loud and high

Strength and unity
Faith and victory
Let the battle rage on
We cry

Whom shall we fear
No one No one
We put our weapons down
Whom shall we fear
No one No one
We raise up worship now

Raise the banner high
March with Adonai
Lift your voices up
Loud and high

Strength and unity
Faith and victory
Let the battle rage on
We cry
