Forget the politics
And all the hypocrites
You know the plot is sick
From religion indecision many I could tell

You think you're too young
They say you're too dumb
Wait till tomorrow comes, but today is the day
You gotta show the way, I say

Hey now now, we're calling you out
Never back down no fear no doubt
Hey now now you can show us how
We gotta get up 'cause we're calling all church punks

This is a call for a truth rebellion
To all the people who here this is a call
To make a stand through you fist up in the air
Yeah make up your mind, now is the time

Hey now now we're calling you out
Never back down no fear no doubt
Hey now now you can show us how
We gotta get up 'cause we're calling all church punks
