"Keep On Moving"

Visit "[Keep On Moving](#)" on MotoLyrics.com

One two, since that day I'm spoken, my home was broken
So when the door was open, I was out and smokin'
I didn't look for trouble, trouble looked for me
But that'd be a lie you see
Me and trouble, got along just fine
Out getting pissed on a beer and a wine
It didn't take long before I met people just like me
Fit, Plot and Foxy
We made a little team if you know what I mean
Checked a few scenes, seen a few themes
Sprayed a few trains, played a few games
Hung around with faces and names
Went out, with pretty young dames
Young love and young flames

It's alright, just keep on moving

Wasn't nothing but sorrow in a house
I wasn't there, I went out
With the boys, just hangin' about
Playing 'round and acting like louts
In them days overcomin our doubts
Servin' up just to keep a little clout
Plotty introduced me to stealin'
And all mothers' words would lost their meaning
Just stole pain to put on my name
Pretty soon, it all seemed the same
So this was my brand new game
Stone Island and Ralph Lauren
That's what we were wearin' then
I loved them days so I look back again
The club scene was bangin' at the time
House and Garage, pills and white lines
Could result a little strain on the mind
We dealt with it, we were fine
It felt like it was our time
Seven, and a eight to the nine
Hit ten, now let's climb
Hit ten, now let's climb

It's alright, just keep on moving
It's alright, just keep on moving
It's alright, just keep on moving
It's alright, just keep on moving

It's alright, alright
So let's make it right
It's alright, alright
So let's make it right

It's alright, just keep on moving
It's alright, just keep on moving

We all wanna rise up in the world
Stay in and make love with our girls
When I look back it's all just a whirl
When I think back it's all just a swirl
My mind moved to the music game
And that's where my future seemed to lay
Tommy D was the next man's name
We made a few tracks and had a little fame
But we didn't make that for fame
We made a few tracks for mankind to play
And that's true what more can I say?
I'm not in the game to play (It's alright)
I'm just in the game to say
Everything's gonna be okay (It's alright)
No stress, cause there's always a way (It's alright, just
keep on moving)
Doesn't matter if your jeans getting frayed
Cause there's no such word as afraid
It took a lil' while but we made the higher grade
It took a lil' while but we made the higher grade

It's alright, just keep on moving
It's alright, just keep on moving
It's alright, just keep on moving
It's alright, just keep on moving

It's alright, alright
So let's make it right
It's alright, alright
So let's make it right
