I want to play all day and swim out in the waves
In a lagoon that has no shark to bite my legs
A perfect place where we can all laugh out loud
With palm trees, an ocean breeze and never any
clouds

Get away, far away
To a place I can stay

Feels like summertime
The sun is shining on my face
Feels like summertime
I never want to leave this place
But if I can't go now
I know someday, somehow

I know you've got a place designed for me someday
I've got a mansion there a royal get away
And when my work is done you'll fly me there at last
A place that doesn't take credit cards or lots, lots of
cash

Get away, far away
To a place I can stay

Feels like summertime
The sun is shining on my face
Feels like summertime
I never want to leave this place

Feels like summertime
The sun is shining on my face
Feels like summertime
I never want to leave this place

But if I can't go now
I know someday, somehow
You you will take me there
Cast away my burdens
Take away my cares

Get away, far away

To a place I can stay

Feels like summertime
The sun is shining on my face
Feels like summertime
I never want to leave this place

Feels like summertime
The sun is shining on my face
Feels like summertime
I never want to leave this place
But if I can't go now
I know someday, somehow
