I see up in the sky, that rainbow
Up above so high I couldn't see the
Other side, I could never glide. Forever
I'll remember the Rainbow, It's like I'm
The only one to know... I love the Rainbow
Do you love it too? It's OK if you do... The
Rainbow! I see up in the sky, that Rainbow up
Above so high. This time I see the other side,
And this time I can glide... Forever I'll remember
The Rainbow I'm not the only one to know... I love
The Rainbow... (softer by the time) The Rainbow (4x
softer)
