Picking up the pieces  
Of our broken memories  
There's one I can't let go of  
That keeps me on my knees  
See I know it's half my fault  
That we couldn't stay together  
But we said no matter what  
We'd still be friends forever

How could you turn and just go  
And leave me standing so cold  
Now you wanna work it out  
Tell me what's that all about  
How could you up and move on  
Like what you had for me is gone  
Now you wanna work it out  
But baby I'm

\*Chorus\*

Tryin to find my way back into you  
When I think of how you left me (left me)  
Baby it's not easy  
But I'm tryin to find my way back into you  
When I think about you've moved on  
Baby it's just so hard

I never quit my love for you  
Baby that's the truth  
Too hard for me to move on  
When I feel this way for you (for you)  
See I know sometimes we need our space  
Baby that's ok  
But if you really loved me  
Why'd you leave that way  
Tell me how

How could you turn and just go  
And leave me standing so cold  
Now you wanna work it out  
Tell me what's that all about  
How could you up and move on

Like what you had for me is gone  
Now you wanna work it out  
But baby I'm

\*Chorus\*

Tryin to find my way back into you  
When I think of how you left me (left me)  
Baby it's not easy  
But I'm tryin to find my way back into you  
When I think about you've moved on  
Baby it's just so hard

Tryin to find my way back into you  
When I think of how you left me (left me)  
Baby it's not easy  
But I'm tryin to find my way back into you  
When I think about you've moved on  
Baby it's just so hard

Heaven knows every second  
I'm away from you  
I find it so hard (yes)  
Find it so hard (yes)  
I'd give anything to find the strength  
To be with you  
I want it like you do (yes)  
Want it like you do (yes)  
I just need some time  
To find peace of mind  
But before you go  
I want you to know that I'm

\*Chorus\*

Tryin to find my way back into you  
When I think of how you left me (left me)  
Baby it's not easy  
But I'm tryin to find my way back into you  
When I think about you've moved on  
Baby it's just so hard
