Let's get it right this time
Cause true love's hard to find
There's nothing we can't over come
Just look at how far we both come

So if there is a problem
We goin fix it
Cause we work to hard for love
and ain't goin loose it

CHORUS
Whatever I said
We can work it out
Whatever you did
We can work it out
Whatever we're going through
Baby remember
We can work it out

Hard times in love are guaranteed

Nothing that good comes easily
I've found someone that's worth the fight
Someone that I could share my life

So if there is a problem
We goin fix it
Cause we work to hard for love
and ain't goin loose it

CHORUS
Whatever I said
We can work it out
Whatever you did
We can work it out
Whatever we're going through
Baby remember
We can work it out
